

CABINERY TUNE-UP FORM

If you are a previous client or have purchased a home with existing Scavolini, Pianca, or Alta Marea...welcome back. We hope that your Italian cabinetry has provided you years of enjoyment with family and friends.

If it's been some time since your initial installation, know that our crews perform the same high-level of service that they did in years past. Perhaps you find that your kitchen needs a simple *tune-up* with hinge replacement or adjustment, door re-leveling, or repairing nicks and scratches. We can do those service calls. Or you'd like to go one step farther and are considering an *up-grade* to new countertops, new appliances, or more cabinetry. Or, perhaps you may find that some additional accessories would help complete the functionality of your kitchen, bath, or closet system. We can guide you through selecting interior fittings to finish your investment.

Simply fill out the form below, and after review we will contact you to schedule. Many tune-ups only take our crews a working day to complete, and we offer competitive hourly rates for these jobs. Should you need design assistance in selecting extras, simply note that below. E-mail to info@accentoitalia.com and feel free to include digital photos with your inquiry, as this will help us address your specific requests more promptly. Thanks!
