

What's Hot In Cabinetry

Touchy Feely

Scavolini's Tribe is a contemporary kitchen distinctive in both color and form. In addition to a variety of tactile materials, such as bronze-finished metals that create a raw, earthy feel, the line offers two door styles: dark brown oak with a red or Havana finish, customized with a graphic decoration, and matte-lacquered metallic in shades of blue and bronze. It also includes glass inserts, bronzed hardware, granite and laminate countertops, and laminate backsplashes with customized decorative elements. **Circle No. 205**
